Marian T. Ryan, District Attorney  
The Middlesex District Attorney's Office  
15 Commonwealth Ave  
Woburn, MA 01801  
Phone (781) 897-8300

Dear District Attorney Ryan:

This request is made pursuant to *Massachusetts General Law Chapter 66: Public Records, Section 10: Inspection and copies of public records; requests; written responses; extension of time; fees* and the *Common Law Right of Access to Public Records*.

People are speculating in the absence of facts. WCVB TV5 stated that Cassidy Baracka “died of covid”. But the following information was entered in VAERS and is likely associated with Cassidy:

- VAERS ID 2038120
- Report received 1/15/2022; Vax\_Date 1/13/2022
- MA, 7yo Female, Symptom\_Test, “Spiked a 103 fever, severe stomachache, has not had a bowel movement since the day before vaccination, which makes today 3 days without one. First vaccine caused severe nausea and vomiting from 5minutes post injection and for the next 8-10 hours.”

Decisions based on misinformation, whether regarding covid or the covid inoculation, may proximately cause death or lifelong disability. Truth is required for informed consent. With this in mind, for the public interest, please soon provide the covid inoculation date or dates of Cassidy Baracka.

I’m afraid that if we wait months until the medical examiner has completed his report, then many more children may die or be maimed. Could Preston Settles have been spared? The public has a right to know the requested information as soon as possible in order that they can make an informed decision about the covid inoculation for their children.

Please provide the information under *Massachusetts General Law Chapter 66, Section 10* and the *Common Law Right of Access to Public Records*.

Regards,  
<Name>
